

IncidentAdmin

IncidentAdmin is a comprehensive case management and investigation solution that is both easy to use and secure. With our RBAC system your organization can manage your incident reporting, security logs, text2tip information and even maintenance requirements.

✓ Case Management

✓ Role Based Security (RBAC)

✓ Blacklist Notifications

✓ Integrated Database

Streamline your Security Operations

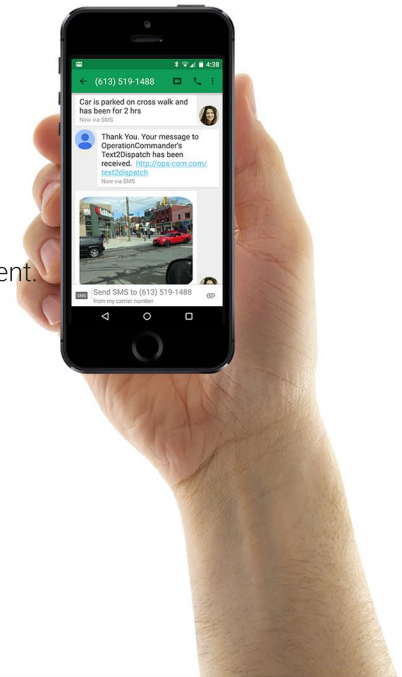

The IncidentAdmin module will integrate seamlessly with your parking and violations system adding a strong incident management tool that is fully connected to your parking and violations database. It was designed to provide a comprehensive reporting and investigation solution to complete the software requirements of the Parking & Security office. With its RBAC access restrictions and 24/7 real-time updating from mobile devices and any computer, IncidentAdmin will provide you with a strong solution without the need of an additional software provider.

Key Features

- Incident Tracking & Escalation
- Unlimited users with Real-time access
- Incident Management & Assignment
- Full Dispatch Log Functionality
- Auto-notifications for blacklist people & plates
- Role Based Security Permissions
